

ANOTHER-- Declaration of Dissatisfaction

The Honorable _____,

At our April 2009 TEA Party in Franklin, PA, an original Declaration of Dissatisfaction was signed and sent to all Federal and State Representatives of our area. To date we have not received a response from you. **Are you listening to us?** **We are not going away!** 'We the People' respectfully request that you who have been elected to protect and defend the Constitution, pay attention to those who have elected you.

Where do you stand on these crucial issues?

- **Protection of Free Enterprise**
 - Will you vote against all legislation that would encourage government-run health care, government ownership of private corporations and anything that would allow the government to compete with private business?
- **Protection of Freedom of Speech**
 - Will you protect our right to information, our right to practice our choice of religion, and our right to speak our opinions publicly? (I.e. vote against legislation such as Hate Crimes legislation that gives special and unequal protections of certain segments of our citizens and FCC legislation that would restrict talk radio.)
- **Protection from Taxation without Representation**
 - Will you do your part to put a stop to the runaway spending of offering bailouts and stimulus money, allowing the market to correct itself?
 - Will you support the tax deduction for charitable donations?
 - Will you promise to read all legislation completely before voting on it?
- **Protection of Private Property including the Right to Bear Arms**
 - Will you fully support our Second Amendment rights?
- **Defending Our Nation**
 - Will you support our troops and our Nation by voting to provide adequate funding to allow the winning of the war in Afghanistan?
 - Will you vote to protect our borders from illegal entry and uphold making only legal immigrants citizens of this country?

I am providing an adequate address for your response and I want you to understand that I will be watching your votes on each of these and other issues. Your voting record will speak clearly of the belief system to which you subscribe, whether it be to uphold the Constitution or to destroy it and our nation.

I look forward to hearing from you as you will be hearing from me at next Election Day.
