

LIHEAP

National Fuel Gas Company wants you to know of a federally funded Low Income Home Energy Assistance Program or LIHEAP that will help individuals and families receive help with their home heating bills. Many of us know family, friends, neighbors and co-workers who would benefit from this program but who may not know that they qualify. For example, a family of four that earns \$33,075 can qualify for help. For more information or to apply, you can contact the Venango Co. Assistance Office at 814-437-4241 or 814-437-4341 or Area Agency on Aging at 814-432-9711 or the Venango Co. Office of Economic Opportunity at 814-432-6767.
